Objective

I am an IT student at Belgium Campus ITiversity specializing in Networking. I have gained practical experience through through Cisco Networking Academy and academic projects. My goal is to build a career as a Database Engineer, designing, and maintaining secure databases that form the backbone of modern IT infrastructure. I am passionate about combining my knowledge of cloud and cybersecurity to deliver robust, high performing and secure IT systems. I enjoy solving complex problems, collaborating with teams and applying technology to create innovative solutions. I am eager to grow professionally and contribute to organizations that value efficient and secure data management

Education

- St Ansgar's Combined School 2020-2023
- NTT Data Saturday School Program 2022-2024
- Belgium Campus ITiversity 2024 - Present
Diploma in Information Technology

Skills

- Excel
- Microsoft Word
- Cisco Packet Tracer
- Ubuntu Visual Box
- SQL
- HTML
- CSS
- Javascript
- C#
- Statistics
- IoT
- Networking
- Operating Systems
- Network Development
- End-user computing
- Cloud-Native Application Architecture
- Innovation and Leadership
- Computer Architecture

Projects

- Printed Solar Powered Smart Racing Vehicle
We designed , built, and raced a small autonomous solar-powered vehicle using 3D printing, IoT sensors, and embedded programming. The goal was to develop a lightweight, energy-efficient, and intelligent racing vehicle that can navigate a track autonomously or via remote control

Achievements & Awards

- Achieved a full scholarship from NTT Data and I was later referred to Belgium Campus ITiversity
- Top 3 2026 achievers of Belgium Campus in Information Systems Average : 82%

Interests

- Calculus
- Reading

Reference

- Mrs Magwaza - St Ansgars High School
